## Counselling Services of Bellville and District

- **Programs/Services:** Autism programs include social groups as well as parent education workshops. The Behavioural Consulting Program works with those who provide care to an individual who has a developmental disability to develop strategies that encourage skill acquisition or behaviour change. All strategies are designed to build upon existing strengths and promote full participation in family and community life.
- **Persons Served:** Individuals over the age of two years who have a diagnosed developmental disability
- **Website:** <http://www.csbd.on.ca/>
- **Area Served:** Services are offered in the counties of Hastings, Prince Edward and Lennox and Addington

- **Address:** 12 Moira Street East, Belleville

## Applied Behaviour Analysis Program Lanark, Leeds, and Grenville

- **Programs/Services:** The Applied Behaviour Analysis (ABA) program is a whole family service that consists of 2 parts:
  - Part 1-Teaching parents about ABA and how it can be applied in their homes and daily lives. This is done through four parent education workshops where parents will learn the components of ABA and how to apply them with their children.
  - Part 2 – Goals for children are identified and skills are taught in a group format over eight sessions. Four in home coaching sessions occur during this time, therapists will guide families to achieving those goals. Groups offered include a play group for preschool aged children, and social/emotional, communication, or social skills group for school aged children
- **Persons Served:** Preschool to school aged children
- **Website:** [http://lcp-home.com/Programs/Autism/Autism\\_ABA.html](http://lcp-home.com/Programs/Autism/Autism_ABA.html)

- **Persons Served:** families, children, adolescents, and adults who have been diagnosed with ASD
- **Website:** <https://www.kerrysplace.org/>
- **Area Served:** Belleville and Tweed

- **Address:** 316 Victoria Street, Tweed

## Kids Inclusive

- **Programs/Services:** Officially one of the Diagnostic Hubs for ASD in the province, Kids Inclusive is operating under CHEO. They take a multidisciplinary approach to diagnostic assessment that includes the following disciplines (as needed based on the information provided in the referral): Pediatrician/Child Neurologist/Psychologist, Occupational Therapy, Speech Language Pathology, Social Work, Physiotherapy, and Family Resource Consultant (who has a background in ABA). In addition to our diagnosticians, we have OT, SLP and our FRC trained in administering the ADOS-2
- Once the child/family is in the process of diagnostic assessment or has received their assessment they have access to a variety of multidisciplinary services (as listed above) on a needs basis. They offer multidisciplinary group programs, parent education workshops, daycare/home consultation, and treatment blocks (primarily only in SLP for children who fall in the severe range for a language impairment). We also help to support families with transition to kindergarten by partnering with the school boards to host a transition to kindergarten workshop, attend school transition meetings if needed, and to provide initial consult visits in the fall for more complex cases that require our support. They do not specify that a child needs to have ASD to receive their services.
- **Persons served:** We typically service children ages 0-6 (or until they are in school) and then transition to community/school based services.
- **Website:** <http://kidsinclusive.ca/>
- **Address:** 166 Brock St, Kingston, ON K7L 5G2
