February 2022 Newsletter

CBS Planning & Review Committee

- ◇ CBS staff welcomed members to the first monthly meeting of the Planning and Review Committee (PRC) on Friday, January 21, 2022.
- ◇ Purpose: Provide input and guidance on the development, planning, and implementation of a variety of services, projects, and research offered at CBS in partnership with faculty, students, and colleagues.
- ◇ Members include faculty of the Behavioural Psychology, Autism & Behavioural Science, Child & Youth Care, and Communicative Disorders Assistant programs, and the Associate Dean of Community Services.

***NEW* CBS Student Committee Opportunity**

The Student Committee will be composed of students from the behavioural science programs (i.e., BPSYC, BSP, AUBS) and collaborative programs (e.g., CYC, CDA, ECE) to meet with CBS staff monthly discuss and present the following:

- ◇ Current and upcoming CBS opportunities, programs, and events
- ◇ How to include, engage, and promote to student volunteers
- ◇ Program and event proposals from students

Complete the [CBS Student Volunteers](#) form to get involved!

CBS Professional Speaker Series

SLC graduates and professionals share their stories of their careers from school to professional work in the field of Behavioural Science.

Students are invited to attend in March to hear professionals share their experiences and reflect on applications of Behavioural Science and interprofessional collaboration.

This is an exceptional opportunity for students to learn how others have begun and built their careers while advancing behavioural science.

Reserve your spot for this exciting opportunity by completing this [online registration form](#)!

Did You Know?

BPSYC Faculty Laura Campbell, and AUBS Faculty Meaghen Shaver, have been offering a fantastic online, self-paced training based on the 4th Task List, called the "[RBT Training](#)". Almost 400 participants have completed the 40 hour training in the last 5 years. The training covers the basics of Applied Behaviour Analysis (ABA), includes case studies, reading, videos, quizzes and more. It is a great training for both those who choose to pursue the RBT ([Registered Behaviour Technician](#)) credential and those who want to learn more about ABA! Check out this [link](#) for more information.

Save the Date!
